

Women's Ministry Department

DIRECTOR: Sister Mary Cole

The Women's Ministries Department develops strategies network, planning and implementing programmes relevant to the needs and development of women Conference wide. The church membership is also kept informed through reports, letters, seminars, retreats, workers' meetings and church visits.

The department has three women's action groups one located in the parish of Clarendon, Saint Catherine and Manchester. These groups are responsible to carry out the activities for the women at that level. These groups plan and incorporate the events of each calendar activity for the benefit of the women, this includes social, economic and spiritual enrichment.

The department plans to conduct surveys to determine the needs of the women in the churches of the Conference, to encourage Women's Ministries Coordinators to include inactive members/groups in current programmes, which will act as a stimulant for them.
